

Anthony DeMarnello-Roybal

#### ESRA History:

Found ESRA in about 2007/2008 when I wanted to adopt a dog... google searched and found all the springers. After reading about the breed I was insistent on having one. My partner and I applied to be able to adopt; went through the vetting and approval process by the organization and were ultimately approved. We adopted our Loving Maxwell from Felicia Adams out of Austin TX. Back then I thought I had done the application to be a member, but there isnt a record and I'm not positively sure. We continued to follow ESRA through the "chat forum" board, until one day it disappeared. By this time we became users of Facebook and search facebook and started following ESRA there, as well as we became introduced to Clayton Nation.

We have participated in Clayton Nation functions, auctions/ fund raising activities etc. I applied back in 2016 to be a board member to find out about my membership record didn't show up??? So I officially became a member at that time.

I also applied and was approved to be a foster parent. I have developed a great relationship with Ronnie Rhiner here in Albuquerque NM and help with transporting, and fostering where we can.
