

## ESRA Resume

Prior to accepting the board assignment I have been active the last couple of years in ESRA Tennessee operations including:

Telephone calls to prospective adopters to confirm their interest, do they have other pets &or children, size of yard, is it fenced, how long daily will the dog be left alone and where will the dog be kept during owner absences. Additional telephone calls to prospective adopters Veterinarians to determine applicants character and history with previous dogs shots etc. I have made home visits & also enjoyed participating in Springer transports.
